How we can help

We take the time to understand different needs and priorities to help you to reduce tax and protect wealth.

Services we offer include:

Personal tax compliance

Let us take care of your tax compliance. Our team will work with you all year round to make sure your tax affairs are under control. We work with clients from many different backgrounds specialising in high net worth, self employed, company director and international. However complicated your tax affairs might seem, we can take away the headache.

Income tax planning

Our approach to income tax planning goes beyond simple compliance. Together we will consider your family and business circumstances to find appropriate solutions that evolve as tax rules change.

Capital gains tax planning

At PEM we believe in building long-lasting client relationships. We will work with you to plan for and reduce capital gains tax by maximising available reliefs including Private Residence Relief and Entrepreneur's Relief.

Inheritance tax planning

Our Inheritance tax specialists will help you plan to pass your family wealth and business assets to the right people at the right time, often working across the generations. Working with you, and where appropriate your legal advisers, we can review your wills to ensure they reflect your current wishes and are tax-efficient. We will help you to maximise all reliefs available including those for Business and Agricultural property. We offer down to earth advice on using trusts and other lifetime planning in a tax efficient way.
